

DevOps engineer (m/f/diverse)

Tirana

At Lufthansa Industry Solutions, we are growing continuously and are therefore looking for a DevOps engineer (m/f/diverse) for our national and international project assignments with our local customers.

As a DevOps engineer (m/f/diverse), you will work on all phases of the software lifecycle. You will be part of our international team, which works with agile methodologies.

Your tasks

- Automate and enhance development and production platforms using the latest technologies, e.g. Azure, Ansible, Terraform, Docker, Percona, Kubernetes
- Develop scripts for build, deployment, maintenance and related tasks using Jenkins, Ansible, Terraform, Docker
- Be part of development/operations/improvement of monitoring systems for different platforms (on-site and on-cloud) using tools such as Prometheus, Icinga, Graphana
- Improve observability of the platforms we support and operate
- Design/operate/improve different storage solutions we utilize for our projects, such as NFS, GlusterFS, Azure Blob Storage
- Use SCM systems such as Git to document and modify any changes carried out each day

Your profile

- University degree in engineering/(business) informatics or equivalent knowledge and skills acquired through years of relevant professional experience and further training measures
- Linux/Windows, 5+ years of experience: at least 3 years of experience with system administration
- Deep knowledge of cloud infrastructure, cloud containerization (Kubernetes, Docker)
- Deep knowledge of Python, PowerShell, C#, Perl, Git
- Good understanding of DevOps processes
- Good knowledge of monitoring platforms (Icinga2, Nagios) and analytics platforms (Rapidminer)
- Strong consulting skills, flexibility and communication skills at all levels
- Fluent English
- Willingness to travel
