

Software Tester (m/f/diverse)

Tirana

We, Lufthansa Industry Solutions, are growing continuously and are therefore looking for you as a Software Tester (m/f/diverse) for our national and international project assignments with our local customers. As a Software tester (m/f/diverse) will work in Test phase of a Software lifecycle. You will be part of international team located in more than one location so you will work in agile methodology.

Your tasks

- Define test plans, test cases, and test data to be used for both automated and manual testing.
- Develops individual test cases and performs tests for each function for the feature component that effectively exercises the code and surfaces bugs or design issues.
- Ensures testing approach conforms to group testing standards, is consistent, thorough and meets schedule and quality expectations.
- Enters clear and concise bug reports with detailed, accurate reproduction steps.
- Works with business development and QA teams to correctly prioritize test cases based on criticality.
- Participates in special projects and performs other duties as assigned

Your profile

- University Degree in Engineering/ (business) informatics or equivalent knowledge and skills acquired in many years of relevant professional experience and further training measures.
- Bachelor's degree in computer science, computer engineering, related fields, or comparable experience.
- Java 1+ year of experience: At least 1-year of experience with Java SE / Object Oriented.
- Experience and Knowledge's on Objective C / C++
- Experience on VB coding experience.
- Build automation tools, such as Gradle or Apache Maven
- Experience with Test automation tools and frameworks like Selenium, Cucumber.
- Experience developing QTP or Coded UI tests to automate user interface testing and recent experience using QC and QTP.
- Good knowledge of Unit Testing as a practice and experience using JUnit.
- Experience with an agile tracking tool such as JIRA
- Strong consulting skills, flexibility and communication skills at all levels
- Fluent English
